

# How to Establish Revenue Streams from Charge-offs

*Overwhelmed with charged-off paper? Turn it into revenue! Selling charge-offs is not complicated.*

*It can be accomplished quickly. Give TBF a call, message, or go to our website tools.*

*TBF receives the basic information on the pool of non-performing accounts. We quickly determine the value and immediately offer a price.*

*If price is acceptable, a purchase agreement is prepared. Then the transaction is closed.*

*For many of our clients, the process is automated. They establish a regular schedule for selling their charge-offs quarterly or annually.*

*You are done! The entire transaction can be completed in a very short time, with a wire payment of funds on your date of closing.*

AT THE FOREFRONT OF  
COMMERCIAL DEBT BUYING

TBF works to collect on the debt without using your name. You have none of the risk, expense, or delay associated with typical collection practices. This is a widely accepted method that we pioneered in 1998. [www.TBFgroup.com](http://www.TBFgroup.com)
